1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14, drawn to a method of making a magnetic disk cartridge.

Group II, claim(s) 15-18, drawn to a magnetic disk cartridge.

Group III, claim(s) 19-24, drawn to a method of cleaning a liner of a magnetic disk cartridge.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: (A) the cartridge of Group II does not require that the liner be fixed in the manner recited in Group I, (B) the liner recited in Group II can be cleaned using methods other than that recited in Group III— e.g. using vacuum techniques, and (C) both the methods of Group I and III can be used to make cartridges/liners other than that recited in Group II.

3. A telephone call was made to Mr. D. Mexic on 9/8/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
